Google CoLab

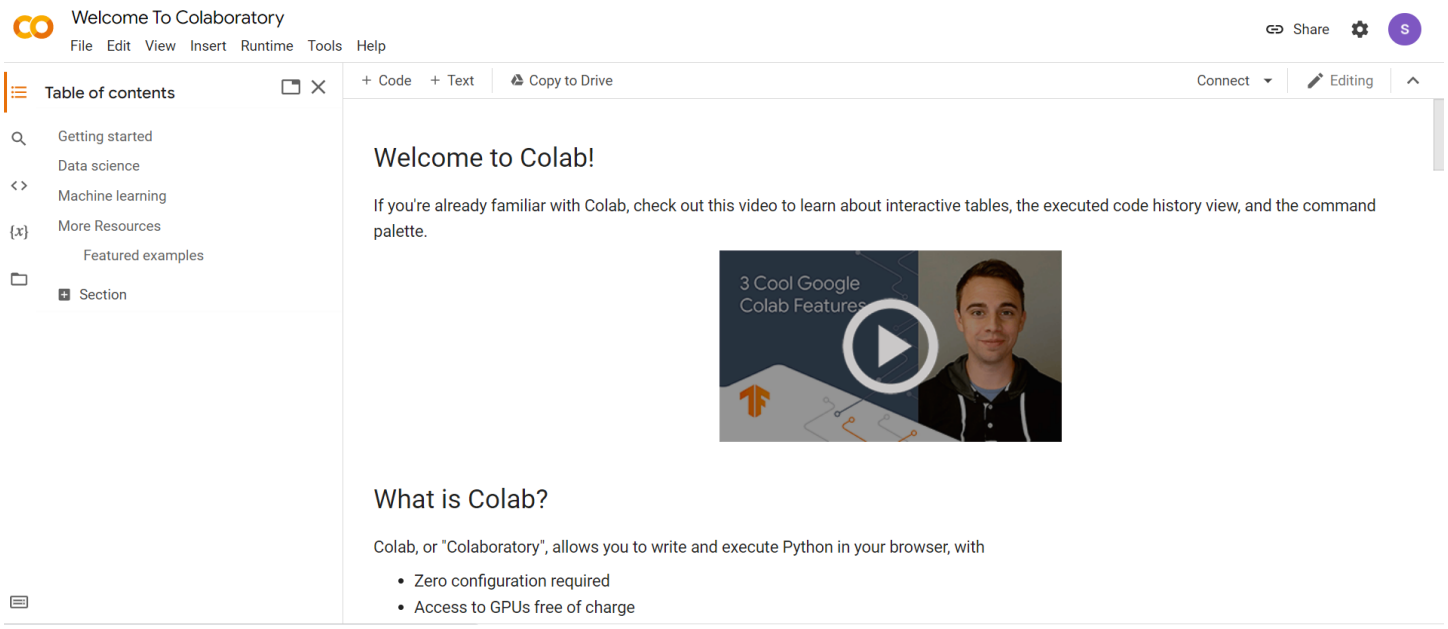

- Step 1: Sign-up google account.
- Step 2: Go to Google Drive, Colab Notebooks directory, there is no files there at the moment.

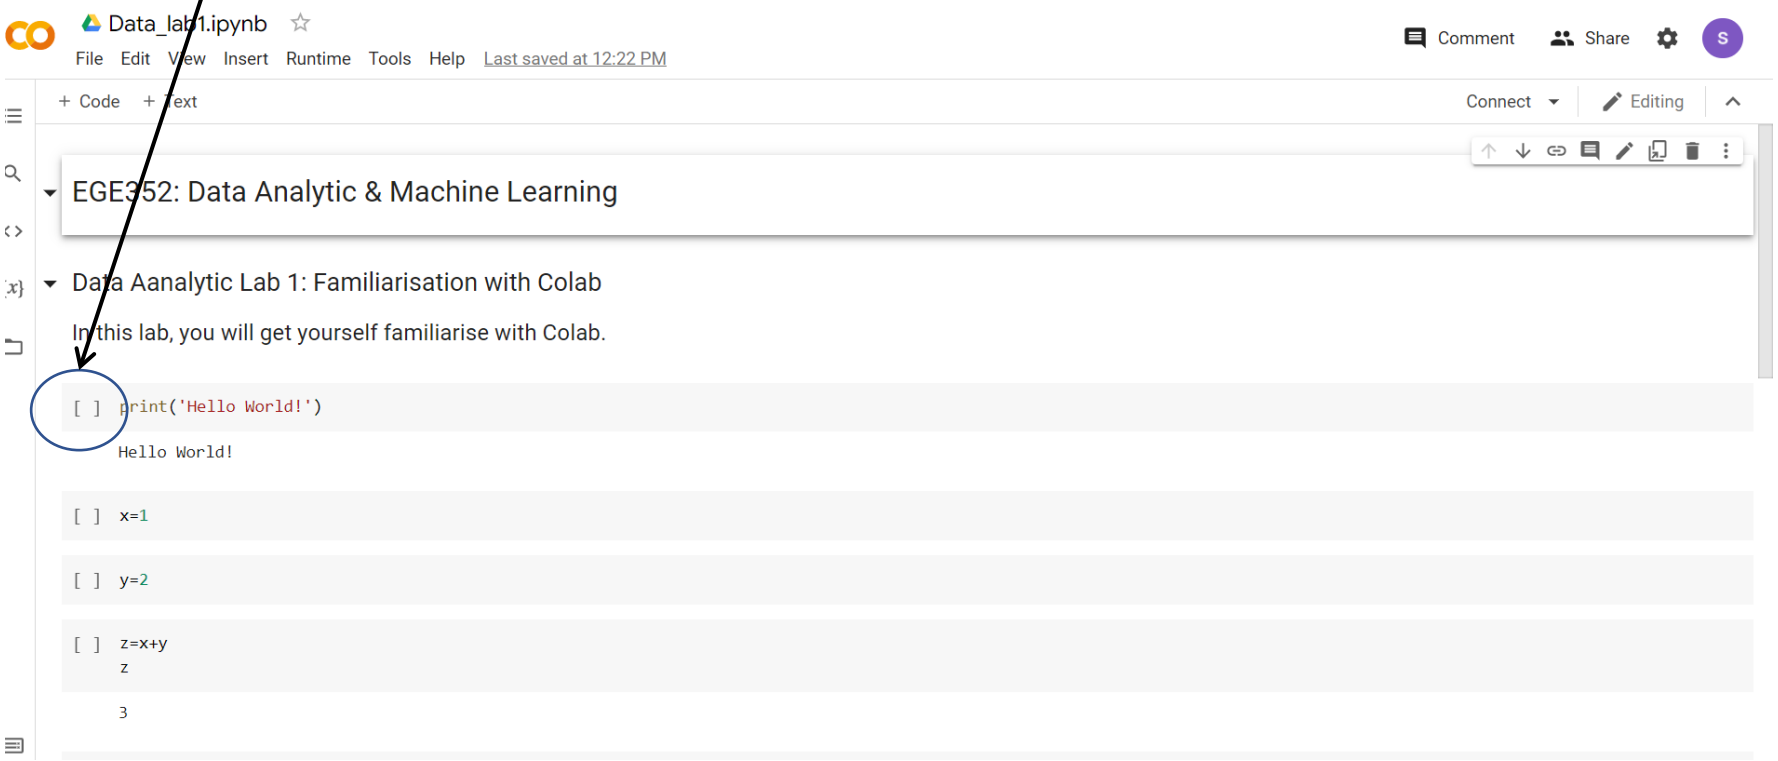

- Step 3: open a new tab and go to https://colab.research.google.com
- Step 4: Click Cancel

- Step 5: File -> Upload Notebook, choose the file Data_lab1.ipnb (from the directory that you have previously downloaded this file from Brightspace)

- Step 6: in Colab, Runtime -> Click on the ‘run button’ to run the first cell!

- Step 7: The file that you have uploaded and run in Colab would now appear in the google drive window.
